

# Product News Updates 12 | 2020

Dear All,

Since our 2021 Collection introductions were published in September 2020, together with the Brand catalogues, we would like to inform you of some product updates.

## SIC

### C-TEC PRODUCTION – UPDATED FINISH

As you are certainly well aware we had some difficulties to deliver our SIC 2020 boards on-time this year. Part of the reason was also due to the complexity to produce our current graphic design. Please note that we proceed following running changes from deliveries ex-TOF in early 2021 :

#### 1/ Matt Finish

All boards will have a full matt finish. The polish finish, particularly that included on the rails, will be cancelled.

#### 2/ Simplified Rail Graphic

We have simplified the graphics on the rail for the following boards :

- BULLET            - BAYONET
- ATLANTIS        - RS

New handle colours

## SUP TALON ALU FIX PADDLES – HANDLE COLOUR

The handle colours on the following TALON FIX will be white, red and black. These colours have been changed to simplify production and be more aligned with the SIC Brand colours.

## TAHE & SIC : PRODUCT AVAILABILITY – RANGE LIMITATIONS

We have an exceptional situation in Vannes production for the 2021 season, where in short :

- We lost 2 months production in 2020 due to COVID-19 lockdown.
- Sales since lockdown have been >100%
- As a result our stock is currently very low, prior to the start of the 2021 season.
- Globally sales forecasts on some machines are extremely heavy for 2021.

Unfortunately we simply won't be able to produce all references advertised in our Collections for 2021. As a result, the following references will not be available in 2021.

### SUP

102269 *TAO SURF 9.2 x 31.5 (ST) ART*  
101990 *SIC TAO BIG FISH 12'0 (ST)*

### SURF

107153 *8'8 DRIFTER AT*  
107155 *8'6 DRIFTER TT*

Both boards are postponed to later launch.

AT Surf boards in general may face shortages during Q1 & Q2, pls focus to TT boards.

### KAYAK

106847 *KAYAK KALAO*  
106852 *KAYAK JAVA*  
106855 *KAYAK SCAPA*

In addition, for all models where there are 2x colours offered, initially only the colour deck version as follows will be available. The grey deck option will be available only later in the season, probably Q2-Q3, once we have more flexibility in our capacity.

### BOATS

We just produced SPORTYAK 245 : next production run is scheduled later in the year. More news in March.

We apologize for this situation that is largely due to the exceptional working conditions for everyone in 2020. We are working hard to catch up and produce full speed as permitted by our capacity.

We expect that by year-end 2021, the 2022 Collection, we should be able to return to normal working conditions.

If you have any comments or questions, please don't hesitate to come back to us.
